

BioMTL Data Use Agreement

Dataset: BioMTL (v1.0) | Contact: biomtl@163.com

This Agreement governs access to and use of BioMTL. Access is limited to non-commercial academic research and is effective only after the Providers confirm the signed application.

1. Definitions

“Dataset” means the PPG signals, labels, metadata, and related files distributed under the name BioMTL. “Recipient” means the applicant who signs this Agreement and the authorized users listed in the application.

2. Grant

Subject to this Agreement, the Providers grant the Recipient a non-exclusive, non-transferable, royalty-free, revocable licence to use the Dataset solely for non-commercial academic research.

3. Permitted uses

The Dataset may be used for internal academic research, model training and evaluation, methodological research, theses, and scholarly publications reporting aggregate results.

4. Prohibited uses

The Recipient shall not use the Dataset for commercial product or service development; redistribute, publish, transfer, sublicense, mirror, or publicly re-host the Dataset; attempt to re-identify any participant; link records to external identifying information; or use the Dataset or derived models for clinical diagnosis, treatment, or medical decision-making.

5. Security and confidentiality

The Recipient shall store the Dataset in a controlled research environment, limit access to authorized users, and take reasonable technical and organizational measures to prevent unauthorized access, copying, or disclosure.

6. Privacy incident

Any suspected re-identification, unauthorized access, or unintended disclosure must be reported to the Providers promptly. The Recipient shall not disclose or exploit any such information.

7. Citation

Publications or public outputs using BioMTL shall cite the associated publication: Zhang, Z., Lu, H., & Zhao, Q. (2026). PPGPT: Transferring Next-Token Modeling from Language to PPG Signals. Proceedings of the AAAI Conference on Artificial Intelligence, 40(34), 28573-28581. <https://doi.org/10.1609/aaai.v40i34.40088>.

BioMTL Data Use Agreement

Terms continued

8. Derived data and outputs

Trained models, aggregate statistics, and non-identifying scholarly results may be published. Sharing any data, representations, embeddings, model outputs, or intermediate files from which individual windows or records could reasonably be reconstructed is prohibited.

9. No warranty; no clinical use

The Dataset is provided “as is”, without warranty of any kind. It is not a medical device and is not for clinical use. The Providers are not liable for damages arising from use of the Dataset to the maximum extent permitted by law.

10. Termination

This licence terminates automatically upon breach. Upon termination, the Recipient must cease use of the Dataset and delete all copies under their control. Sections concerning confidentiality, prohibited uses, privacy, citation, no warranty, and governing law survive termination.

11. Governing law

This Agreement is governed by the laws of the People’s Republic of China, without regard to conflict-of-laws rules.

Copyright (c) 2026 Dataset contributors. All rights not expressly granted in this Agreement are reserved.

Application instructions

Complete the application on the next page, sign it, and send the signed PDF to biomtl@163.com. Access is not automatic and is granted only after confirmation by the Providers.

Data storage and access control

I have read and agree to the terms of this Agreement. I confirm that the intended use is non-commercial academic research; that I will not redistribute the Dataset; that I will not attempt re-identification; and that I will not use the Dataset for clinical decision-making.
